Professional Summary

Computer Science undergraduate with a strong foundation in Artificial Intelligence and full-stack development. Experienced in building scalable web applications using modern technologies like the MERN stack and integrating AI-driven solutions to solve real-world problems. Gained hands-on experience through internships in AI, UI/UX, and design, contributing to improved user experiences and impactful digital products. Currently developing AI-based and full-stack applications, with a strong passion for innovation, problem-solving, and continuous learning.

Technical Skills

- Programming Languages:** JavaScript, Python, HTML, CSS, Java
- Frontend:** React.js, Tailwind CSS, Framer Motion, React Router DOM
- Backend:** Node.js, Express.js
- Database:** MongoDB (Mongoose), MongoDB Atlas
- APIs & Tools:** OpenRouter API, Firebase Authentication, Razorpay, Web Speech API
- Libraries:** Axios, jsPDF, Multer, PDF.js
- Concepts:** REST APIs, JWT Authentication, Full-Stack Development, AI Integration

Project

HireIQ – AI Interview Agent (AI-Powered Mock Interview & Resume Analysis Platform)

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Firebase, OpenRouter API, Razorpay

- Developed a full-stack AI-powered interview platform that generates personalized interview questions based on user resumes and job roles
- Implemented resume parsing using Multer and PDF.js to extract skills and experience dynamically
- Integrated AI-based question generation and evaluation using OpenRouter API (GPT-based model)
- Built voice-enabled interaction using Web Speech API (Text-to-Speech & Speech-to-Text) for real-time interview simulation
- Designed a performance evaluation system analyzing Confidence, Communication, and Correctness
- Enabled secure authentication using Firebase and JWT-based session management
- Developed PDF report generation using jsPDF for detailed feedback and analytics
- Integrated Razorpay payment gateway for a credit-based interview system
- Built a responsive UI using React.js, Tailwind CSS, and Framer Motion animations

Education

JECRC UNIVERSITY, JAIPUR

2023 - 2027

CGPA: 94.8%

BTech in Computer Science and Engineering with Artificial Intelligence and Machine Learning

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning

SIDHHARTHA PUBLIC SCHOOL, NORTHWEST DELHII (Class 12th, CBSE)

2021 - 2023

Percentage: 86.4%

ST. MICHAELS'S SR. SEC. SCHOOL, GURUGRAM (Class 10th, CBSE)

2020- 2021

Percentage: 96%

Certifications

- AWSSolutionsArchitecture Job Simulation (**Forage**) Jul 2025-Jul 2025
- Statistics 101 (**IBM**) Feb 2025-May 2025
- Google Ads (**Google**) Sep 2024-Oct 2024
- Digital Marketing (**Google**) Jun 2024-Aug 2024
- Data Science (**IBM**) Aug 2023-Jan 2024
- Data Visualisation (**IBM**) Aug 2023-Jan 2024

Extra Curricular

- Participated in hackathons (SIH) focused on innovative solutions for real-life problems (2024 & 2023)
- Worked on a Project Named as ScholarAI - AI based platform for summary generator for Research Papers.

Work Experience

International Asset Reconstruction Company (IARC)

Jul 2025 - Aug 2025

AI Prompt Engineer Intern

- Developed and optimized AI prompts for evaluating call recordings, improving accuracy in assessing customer interactions
- Designed and tested evaluation frameworks to enhance the reliability and consistency of AI-generated insights
- Collaborated with cross-functional teams to integrate AI-based intelligence extraction into existing systems for scalability
- Contributed to building structured assessment workflows for training and performance evaluation

Technologies Used: Gemini AI, NotebookLM
